

Arithmetic – Find the Missing Number Subtraction Sentences

Information:

These questions have been taken from the KS1 Arithmetic test to help your children practise specific question types. Questions of this style appear on the 2016 sample Arithmetic paper (question 12), the 2016 Arithmetic Test (questions 3 and 9), the 2017 Arithmetic Test (question 23), the 2018 Arithmetic Test (question 23) and the 2019 Arithmetic Test (question 22).

National Curriculum Objectives:

Mathematics Y1: (1C1) [Add and subtract one-digit and two-digit numbers to 20, including zero](#)

Mathematics Y1: (1C4) [Solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as \$7 = - 9\$](#)

Mathematics Y2: (2C1) [Recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100](#)

Mathematics Y2: (2C3) [Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and missing number problems](#)

Differentiation:

Beginner Subtracting 1-digit numbers from 1-digit numbers. Missing one number, answer given. Aimed at Year 1 Developing.

Easy Subtracting 1-digit numbers from 2-digit numbers up to 20. Missing one number, answer given. Aimed at Year 1 Expected/Year 2 Developing.

Tricky Subtracting 2-digit numbers from 2-digit numbers up to 20. Missing one number, answer given. Aimed at Year 2 Expected

Expert Subtracting multiples of 10 from multiples of 10 up to 100. Missing one number, answer given. Aimed at Year 2 Expected.

Brainbox Subtracting 2-digit numbers from 2-digit numbers up to 100. Missing one number, answer given. Aimed at Year 2 Expected.
